**Subject:** Ag Park Fill on Phase 1 Lots

Hello,

I spoke to Bob Beers regarding the future fill to be placed over the Riverside Agricultural Park site prior to construction. Bob confirmed that all Phase 1 lots, with the exception of decomposed granite lots 6 through 17, will receive a minimum of 5 feet of imported fill material prior to construction. This confirms that Phase 1 lots which did not have excavation will still be graded down and backfilled with import fill material (with the exception of the decomposed granite lots described above).

Thanks  
Greg
